## Interstate 2-10 Bridge Update

The Louisiana Department of Transportation and Development (LADOTD) announced today that the proposed project to re-deck the I-210 Bridge will be re-bid.

The project was originally put out for bid in November 2016. However, LADOTD received only one bid, which came in approximately 150 percent over estimate.

Originally, the project involved performing joint repairs on I-10 bridges throughout Lake Charles, as well as re-decking the main span of the I-210 Bridge. As part of the re-bid process, the I-10 and I-210 work will be separated into two projects.

LADOTD is further evaluating the unique circumstances and accommodations needed in order to perform the I-210 Bridge re-decking, which may have resulted in the single bid. Maintaining traffic during construction is a major challenge in this project.

I-10 bridges joint repair work will be re-bid in May 2017, while the I-210 Bridge re-bid is scheduled for November 2017.
